The application has been amended as follows:

In the response to the restriction requirements, Applicants elected with traverse, Group 1, claims 1-8, drawn to a polymer composition, with species of group (a), the compounds of formula (I) of claim 1.

Note that claim 1 with species (I) is allowable over the prior art because the Rule 1.132 Declaration has been submitted to show the unexpected results in the presence (the instant claim) and absence of a phenyl group as endcapping group.(the reference).

Since claim 1 is allowable, the search is further expanded to non-elected species, such as formula (II) of claim 2, formula (III) of claim 3, formula (IV) of claim 4, formula (V) of claim 5, formula (VI) of claim 6, and formulae (I)+(VII) of claim 8. However, no prior art has been found. Therefore, claims 1-8 are allowed.

Claims 9-14, drawn to an organic thin film transistor, are also allowed since the claims comprising the claimed polymer composition, which has been allowed.

Claims 15-22, drawn to a method of manufacturing an organic thin film transistor, are also allowed since this is the claimed method of use a polymer composition, which has been allowed.

Therefore, claims 1-22 are allowed.
